

GAME of OPPOSITES

Directions:

- Print out the attached game cards. Cut along dotted lines and then individually cut each word out.
- This game is a memory concentration game.
- Place the cards upside down in rows.
- Players take turns choosing two cards per turn.
- If the cards go together because they are opposite words then you have a match.
- If the cards do not go together they must be placed back in the same place for others to retrieve.
- Players who make a match get a second chance to find another matching pair.
- When all cards are gone the game is over.
- The winning player is the one who obtains the most matching cards.

Key:
