

Resources

Every day we look at different things around us to help answer important questions. Wise people know what questions to ask and what resources to use to gather the information they need to find the answers. A **resource** is anything that supplies information such as a book, a person, a website, and so on.

Directions: Draw a line from the questions on the left to the picture on the right that shows what resource we go to in order to find the answer to the question.

What time is it?

Should I take my umbrella when I go outside today?

What food can I eat at the restaurant?

When is the bus coming?

What route should I take to drive to the grocery store?

How thick is the earth's crust?
