

Recording a Date

There are many ways to record a date. Scientists and historians are strict about following consistent rules when writing dates. A common format is: MM/DD/YYYY.

The months by number:

01	January	07	July
02	February	08	August
03	March	09	September
04	April	10	October
05	May	11	November
06	June	12	December

Write today's date using the MM/DD/YYYY format: ___ / ___ / _____

Write today's date using a different format: _____
