

Integrity

A person with integrity is someone who is honest. Honesty is the quality of being fair, truthful and morally upright. The five steps to honesty are shown above. When you are honest you are able to enjoy peace of mind and maintain self-respect. The opposite of honesty is dishonesty. Dishonest people lie, cheat, steal, trick others, tell part truths, and take advantage of others.

Dishonest people hurt themselves and others because they cannot be trusted. We must choose to have integrity.

Review the five steps of honesty. Color each shoe print above a different color.
